

Lab 05 - MLB Wins

Due: Friday, Feb 21 at 11:59pm

Lab Group - Member 1, Member 2, Member 3, Member 4

Packages

```
library(tidyverse)
library(ggplot)
library(broom)
```

Data

```
teams_default <- read_csv("data/teams.csv")
```

Tasks

Task 1

Task 5

Below is a template for how you can write math notation in your Rmd file. You'll need to fill in the coefficient estimates from your fitted linear model and the corresponding variable names.

$$\widehat{\text{y-variable}} = b_0 + b_1 \text{ x-variable}$$
